SUMMARY

Frontend-focused developer with experience building scalable web applications using **React**, **JavaScript**, and **TypeScript**. Strong understanding of component-based architecture, state management (**Redux Toolkit**, **React Query**), and **REST API** integration. Comfortable working across the **MERN** stack to deliver complete web solutions.

TECH STACK

FRONTEND
- React
- TypeScript
- Tailwind
- JavaScript

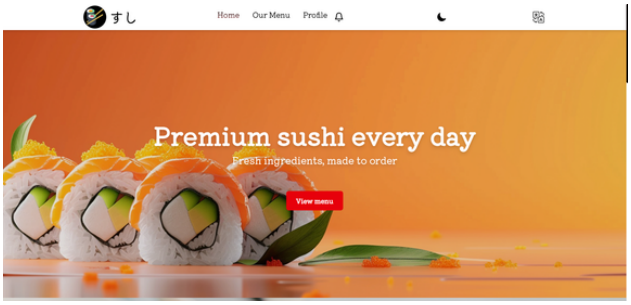
STATE MANAGEMENT
- Redux ToolKit
- React Query

BACKEND
- Node.js
- Express

DATABASE
- MongoDB
- NoSQL

TOOLS
- Git
- Render
- Vercel
- Postman

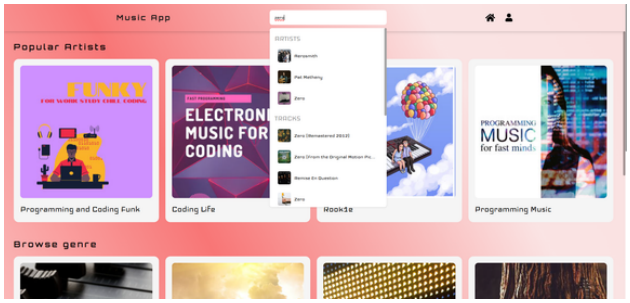
PROJECTS



Sushi Ecommerce

React • TypeScript • Redux Toolkit • React Query • Node.js • Express • MongoDB • JWT • Stripe

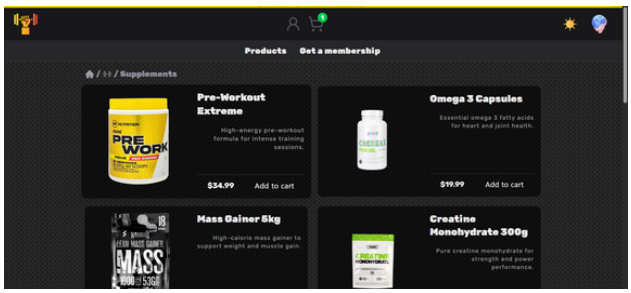
- **Merge logic on login** for a unified UX
- **React Query** used to fetch authenticated profile data
- **Conditional rendering** based on auth state
- Breadcrumb UI for **hierarchical navigation**



Music App

React • TypeScript • Redux Toolkit • React Query • Node.js • Express • MongoDB • JWT • Stripe

- Protected routes using **authentication middleware**
- **Stripe Checkout** session creation
- **Clean separation of concerns**
- **Protected routes** using a dedicated ProtectedRoute



Gym Ecommerce

React • TypeScript • Node.js • Express • MongoDB • Authentication

- Server vs Client state separation using **React Query + Redux**.
- **Dynamic theme system** applied globally via context.
- **Modular feature-based architecture** with routes, controllers, services, and models
- **Dual cart system** for guest and authenticated users, including merge functionality

EXPERIENCE

Hospitality Staff | United States & Argentina — 2016-2023

- Delivered exceptional customer service in a fast-paced environment
- Collaborated with team members to ensure smooth daily operations
- Enhanced English proficiency through daily interaction with international customers and adapted to multicultural work environments, improving communication and collaboration skills

EDUCATION

Full stack Web Development course

CoderHouse 2024-2025

LANGUAGES

- **Spanish**: Native
- **English**: Intermediate (B2)

Let's build something amazing together
